

THE ABERDARE TECHNICAL COLLEGE

ICT TECHNICIAN LEVEL 5

CONTINUOUS ASSESSMENT TEST 2 – MODULE 2

UNIT: COMPUTER NETWORK SET UP

UNIT CODE: ISCED UNIT CODE: 0612 351 03A

ELEMENT2:CONNECT COMPUTER NETWORK CABLES

PRACTICAL CHECKLIST 2

TOTAL MARKS: 50 MARKS

NAME: _____

REG NO: _____

DATE: _____

ASSESSOR OBSERVATION CHECKLIST (50 MARKS)

CUTTING LIST (NETWORK CABLING PRACTICAL)

ITEM	QUANTITY	PROVIDED BY
UTP Cat5e/Cat6 cable for Router to Switch connection	1 length (1–2m)	INSTITUTION
UTP Cat5e/Cat6 cable for Switch to PC1 connection	1 length (1–3m)	INSTITUTION
UTP Cat5e/Cat6 cable for Switch to PC2 connection	1 length (1–3m)	INSTITUTION
UTP Cat5e/Cat6 cable for Switch to PC3 connection	1 length (1–3m)	INSTITUTION
UTP Cat5e/Cat6 cable for termination practice	1 length (30–50cm per trainee)	INSTITUTION
RJ45 connectors	2 per cable (minimum 8–10 total per trainee)	INSTITUTION
Patch cables (straight-through)	As required for testing	INSTITUTION
Cable tester	1 unit per lab/group	INSTITUTION
Multimeter	1 unit per lab/group	INSTITUTION

Tape measure	1 unit per lab/group	INSTITUTION
Crimping tool	1 unit per lab/group	INSTITUTION
Wire stripper and cutter	1 unit per lab/group	INSTITUTION

TASK 1: NETWORK CABLE TESTING (20 MARKS)

No.	Activity/Competency	Allocated Marks	Candidate Score	Remarks
1	Correctly connects cable tester to both ends of the cable	2		
2	Performs continuity testing correctly	3		
3	Correctly interprets continuity test results	2		
4	Performs wire mapping test correctly	3		
5	Correctly identifies pin-to-pin connections	2		
6	Uses cable tester or multimeter correctly and safely	2		
7	Correctly identifies cable fault	3		
8	Correctly measures and records cable length	3		

Task 1 Score: _____/20

TASK 2: NETWORK DEVICE SETUP AND IP CONFIGURATION (20 MARKS)

No.	Activity/Competency	Allocated Marks	Candidate Score	Remarks
1	Correctly connects Router to Switch	3		

2	Correctly connects PC1 to Switch	2		
3	Correctly connects PC2 to Switch	2		
4	Correctly connects PC3 to Switch	2		
5	Powers on all devices correctly	2		
6	Configures IP addresses correctly	4		
7	Configures subnet masks correctly	2		
8	Configures default gateways correctly	1		
9	Verifies IP configuration using Command Prompt	1		
10	Successfully performs connectivity testing using ping command	1		

Task 2 Score: _____/20

TASK 3: IDENTIFICATION OF NETWORK TOOLS (10 MARKS)

No.	Activity/Competency	Allocated Marks	Candidate Score	Remarks
1	Correctly identifies Cable Tester	2		
2	Correctly identifies Multimeter	2		
3	Correctly identifies Crimping Tool	2		
4	Correctly identifies Wire Stripper/Cutter	2		
5	Correctly states one use of each tool	2		

PRODUCT CHECKLIST

No.	Product/Output	Allocated Marks	Candidate Score	Remarks
1	Continuity test result accurately recorded	3		
2	Wire mapping result accurately recorded	3		

3	Cable fault correctly identified and recorded	3		
4	Cable length correctly measured and recorded	2		
5	IP addresses configured according to addressing scheme	3		
6	Successful connectivity between PCs demonstrated	2		
7	Successful connectivity between PC and Router demonstrated	2		
8	Tool identification sheet completed correctly	2		

TOTAL PRODUCT SCORE: _____/20

ORAL QUESTIONS SECTION

Qn. No.	Question	Expected Response	Allocated Marks	Score	Remarks
1	What is the purpose of a cable tester?	To test network cables for continuity and faults.	2		
2	What is continuity testing?	Checking whether electrical signals pass through a cable from one end to another.	2		
3	What is wire mapping?	Verifying that each wire is connected to the correct pin on both ends of a cable.	2		
4	State one network cable fault.	Open circuit, short circuit, miswiring or split pair.	2		
5	What is the function of a multimeter?	Measures voltage, current, resistance and continuity.	2		
6	What is the purpose of a switch in a network?	Connects devices within a LAN and forwards data to the correct destination.	2		

7	What is the function of a router?	Connects different networks and routes data between them.	2		
8	What is an IP address?	A unique address used to identify a device on a network.	2		
9	What is the purpose of a subnet mask?	Identifies the network and host portions of an IP address.	2		
10	What is the purpose of a default gateway?	Allows devices to communicate with networks outside their local network.	2		
11	Which command is used to view IP configuration in Windows?	ipconfig	2		
12	Which command is used to test connectivity between devices?	ping	2		
13	What is the IP address assigned to PC2 in this practical?	192.168.1.3	2		
14	What is the purpose of a crimping tool?	To attach RJ45 connectors to network cables.	2		
15	Why should safety procedures be observed in a networking laboratory?	To prevent accidents, injuries and damage to equipment.	2		

TOTAL ORAL SCORE: _____/30

ASSESSOR SIGNATURE: _____
