

ABERDARE TECHNICAL COLLEGE

PRACTICAL 1 TERM 2

ICT TECHNICIAN LEVEL 5 MODULE 2

UNIT OF COMPETENCE: PERFORM NETWORK SET UP

UNIT CODE: 0612 351 03A

ELEMENT 1: TERMINATE COMPUTER NETWORK CABLES

PRACTICAL EXAMINATION

TIME: 2 HOURS

TOTAL MARKS: 50

INSTRUCTIONS TO THE CANDIDATE

1. This is a practical examination.
2. Read all instructions carefully before starting.
3. Observe all safety precautions during the practical exercise.
4. Use the materials and tools provided.
5. All work must be demonstrated to the assessor.

CANDIDATE DETAILS

Candidate Name: _____

Admission Number: _____

Date: _____

CUTTING LIST

Tools and Materials Required

- UTP Network Cable (Cat5e/Cat6)

- RJ45 Connectors
- Crimping Tool
- Wire Stripper
- Cable Cutter
- Network Cable Tester
- Cable Trunking
- Measuring Tape
- Pencil/Marker
- Spirit Level
- Drill
- Screwdriver
- Screws
- Wall Plugs
- Cable Ties
- Dust Coat/Overall
-
- Cleaning Cloth/Table Duster

PRACTICAL TASK

You have been contracted to install and terminate a network cable for a small office network. Perform the following tasks.

TASK 1: PREPARE TOOLS, MATERIALS AND WORK AREA

- Select the appropriate network installation tools and materials.
- Wear the necessary safety equipment.
- Inspect the network cable, RJ45 connectors and other materials.
- Organize the work area and observe safety requirements.

TASK 2: TERMINATE A NETWORK CABLE

- Measure and cut the UTP cable to the required length of 1.3M
- Strip the cable jacket correctly.
- Arrange conductors according to the T568B colour coding standard.
- Insert conductors into RJ45 connectors.

- Crimp both ends of the cable.
- Test the cable and confirm proper termination.

TASK 3: INSTALL NETWORK CABLE TRUNKING

- Measure and mark the trunking route.
- Cut and fit the cable trunking.
- Secure the trunking appropriately.
- Route the terminated cable through the trunking.
- Apply proper cable management practices.
- Clean the work area after installation.
