Section

2

Lack of clear goals & responsibilities → when people do not know their duties, there may be neglected sections to achieve.

1. Poor Leadership → The leader failed to guide the team properly, causing confusion & disagreements.

Unequal work distribution → Some members felt they are doing more work than others. Causing Confusion. Differences in opinions & ideas. Some members felt their ideas were being ignored during meetings. Causing disagreements.

2. On team Performance → the team members refuse to collaborate & help one another. Motivation down. Causing decline in overall quality of work done.

Customer Satisfaction → divide team is likely to make technical errors. Causing loss of installation. The client experience.

Project Completion → disagreements delay the implementation.

1. Identify the Cause of Conflict by listening to all parties involved. Allow all team members to express their views & feelings.

2. Arrange a meeting where the members can discuss the issue & work towards a solution.

3. Encourage members to address the cause of the conflict.

4. Encourage co-operation & respect among others. Put the chosen solution into action.

5. Avoid taking sides & treat everyone equally to gain the trust.
