

ABERDARE TECHNICAL COLLEGE

DEPARTMENT OF INFORMATION COMMUNICATION

TECHNOLOGY (ICT)

OBSERVATION CHECKLIST

ICT TECHNICIAN LEVEL 5 MODULE III

UNIT CODE: 0612 451 07A

UNIT OF COMPETENCE: NETWORK DESIGN AND MANAGEMENT

ELEMENT: DESIGN COMPUTER NETWORK

PRACTICAL 1

Duration: 2 Hours

Maximum Marks: 50 Marks

Student Name: _____

CDACC No.: _____

Date: _____

Assessor: _____

INSTRUCTIONS TO THE ASSESSOR

1. Ensure the candidate has all the required materials before commencing the assessment.
2. Observe the candidate throughout the practical session and award marks based on demonstrated competence.
3. Award marks only for tasks successfully completed according to the given requirements.
4. Record marks in the Candidate Score column.
5. Provide comments where necessary in the Remarks column.
6. Assess both the process and the final product/output.
7. Ensure the candidate performs all configurations independently.
8. Verify connectivity tests before awarding marks.
9. Complete the assessment summary and competency decision section.
10. Sign the assessment form after completion.

MATERIALS / CUTTING LIST

Item	Quantity	Provided By
Desktop Computer	1	Institution
Cisco Packet Tracer Software	1	Institution
Assessment Question Paper	1	Institution
Foolscap Paper for Documentation	1	Institution
Pen/Pencil	1	Candidate
Observation Checklist	1	Assessor
Network Design Practical Instructions	1	Institution

SECTION A: PRACTICAL OBSERVATION CHECKLIST (50 MARKS)

TASK 1: CREATE THE NETWORK TOPOLOGY (15 MARKS)

Activity	Allocated Marks	Candidate Score	Remarks
Added one router correctly	3		
Added two switches correctly	3		
Added four PCs for Administration Department	2		
Added four PCs for Training Department	2		
Connected devices using appropriate cables	3		
Arranged devices neatly to form a logical network layout	2		

Task 1 Total: 15 Marks

TASK 2: DEVELOP THE ADMINISTRATION DEPARTMENT LOGICAL NETWORK DESIGN (13 MARKS)

Activity	Allocated Marks	Candidate Score	Remarks
Configured correct IP addresses for all Administration PCs	5		
Configured correct subnet masks	3		
Configured correct default gateways	3		
Verified configuration accuracy	2		

Task 2 Total: 13 Marks

TASK 3: ADD TRAINING DEPARTMENT LOGICAL NETWORK DESIGN (12 MARKS)

Activity	Allocated Marks	Candidate Score	Remarks
Added and connected Training Department switch correctly	3		
Configured correct IP addresses for all Training PCs	4		
Configured correct subnet masks	2		
Configured correct default gateways	2		
Verified configuration accuracy	1		

Task 3 Total: 12 Marks

TASK 4: CONFIGURE THE ROUTER (10 MARKS)

Activity	Allocated Marks	Candidate Score	Remarks
Configured G0/0 interface correctly	4		
Configured G0/2 interface correctly	4		
Activated interfaces and verified status	2		

Task 4 Total: 10 Marks

TOTAL OBSERVATION MARKS = 50 MARKS

SECTION B: PRODUCT CHECKLIST (20 MARKS)

TASK 5: TEST NETWORK CONNECTIVITY (10 MARKS)

Product/Evidence	Allocated Marks	Candidate Score	Remarks

Successful ping from PC1 to PC2	2		
Successful ping from PC1 to PC4	2		
Successful ping from PC3 to Router	2		
Successful communication between Administration devices	2		
Successful communication between all configured devices	2		

Task 5 Total: 10 Marks

TASK 6: SAVE AND DOCUMENT THE NETWORK (10 MARKS)

Product/Evidence	Allocated Marks	Candidate Score	Remarks
Packet Tracer file saved using required naming convention	2		
Report contains network title	1		
Report contains devices used	1		

Report contains IP addressing table	2		
Report contains router configuration	2		
Report contains connectivity test results	2		

Task 6 Total: 10 Marks

TOTAL PRODUCT MARKS = 20 MARKS

ASSESSMENT SUMMARY

Assessment Area	Maximum Marks	Candidate Score
Observation Checklist	50	
Product Checklist	20	
TOTAL SCORE	70	

COMPETENCY DECISION

A candidate shall be deemed:

☐ COMPETENT (C) if he/she scores 50 marks and above.

☐ NOT YET COMPETENT (NYC) if he/she scores 49 marks and below.

Final Score: _____ / 50

Result: _____

ASSESSOR'S COMMENTS
