

OBSERVATION CHECKLIST

PRACTICAL CHECKLIST2

UNIT: NETWORK DESIGN AND MANAGEMENT

ISCED UNIT CODE: 0612 451 07A

TIME: 2 HOURS

ELEMENT COVERED: INSTALL COMPUTER NETWORK

TOTAL MARKS: 50 MARKS

CANDIDATE DETAILS

Student Name: MARCO KSIKA

Adm No:

Date: 22/6/26

PRACTICAL TASK: COMPUTER NETWORK SETUP AND CABLING

Instructions to the Candidate

You are required to construct a network cable, set up a Local Area Network (LAN) consisting of four computers, a switch, and a wireless router, configure network devices, and verify connectivity. Read all instructions carefully before starting the practical exercise.

CUTTING LIST / MATERIAL REQUIREMENTS

Item	Specification	Quantity
UTP Cat6 Cable	1 Metre	1 Length
RJ45 Connectors	8P8C	2 Pieces
Cable Ties	Standard	4 Pieces
Network Switch	8-Port or above	1
Wireless Router	Wireless Enabled	1
Computers	Network Ready	4
Patch Cords	Ethernet	As Required
Cable Crimper	Networking Tool	1
Cable Stripper	Networking Tool	1
Cable Tester	Networking Tool	1
Screwdriver Set	Networking Tool	1 Set

PRACTICAL OBSERVATION CHECKLIST

TASK 1 OBSERVATION CHECKLIST

Activity	Allocated Marks	Score	Remarks
Selected appropriate tools and materials	2	2	
Measured and cut cable correctly	3	2	wrong measuring
Stripped cable jacket correctly	3	3	Stripped well
Arranged conductors correctly	4	4	arranged well
Inserted wires into RJ45 correctly	2	2	Done correctly
Crimped RJ45 connectors correctly	3	3	connector correctly
Tested cable successfully	3	3	Cable tested
TOTAL	20	18	

18

TASK 2 OBSERVATION CHECKLIST

Activity	Allocated Marks	Score	Remarks
Connected devices correctly	5	5	connected
Configured router correctly	5	5	configured
Configured IP addresses correctly	4	4	configured
Applied cable management	3	2	not neat management

Verified connectivity (Ping test)	3	03	Verified
TOTAL	20	19	

19

TASK 3 OBSERVATION CHECKLIST

Activity	Allocated Marks	Score	Remarks
Verified connectivity between PCs	3	00	Connectivity verification not done
Verified connectivity to router	3	03	Router connectivity done
Prepared complete network report	4	02	Incomplete network report
TOTAL	10	5	

5

SUMMARY OF PRACTICAL OBSERVATION MARKS

Task	Marks
Task 1	20 18
Task 2	20 19
Task 3	10 5

TOTAL PRACTICAL MARKS	50	42
-----------------------	----	----

PRODUCT CHECKLIST (10 MARKS)

Instructions

This section is assessed independently and is NOT added to the 50 practical marks.

PRODUCT CHECKLIST

Product Evidence	Allocated Marks	Score	Remarks
Functional straight-through cable produced	2	2	
Cable passes tester successfully	2	2	Passed
Router configured correctly	1	1	Router configured
All PCs correctly IP configured	1	1	IP configured correctly
Successful PC-to-PC communication	1	1	Not done
Successful PC-to-router communication	1	1	Router pinged
Neat cable management applied	1	1	Not neat
Network report submitted	1	1	Submitted
TOTAL PRODUCT MARKS	10		

TOTAL PRACTICAL MARKS	50
	42

PRODUCT CHECKLIST (10 MARKS)

Instructions

This section is assessed independently and is NOT added to the 50 practical marks.

PRODUCT CHECKLIST

Product Evidence	Allocated Marks	Score	Remarks
Functional straight-through cable produced	2	02	
Cable passes tester successfully	2	02	Passed
Router configured correctly	1	01	Router configured
All PCs correctly IP configured	1	01	IP configured correctly
Successful PC-to-PC communication	1	00	Not done
Successful PC-to-router communication	1	01	Router pinged
Neat cable management applied	1	00	Not neat
Network report submitted	1	01	Submitted
TOTAL PRODUCT MARKS	10
