

ABERDARE TECHNICAL COLLEGE

OBSERVATION CHECKLIST

PRACTICAL CHECKLIST 1

COURSE: INFORMATION COMMUNICATION TECHNOLOGY

UNIT: Network Design and Management

UNIT CODE: 0612 451 07A

PRACTICAL 1 – TERM 3

Candidate and assessor details

Candidate name... KARIM... MARCUS

Assessor

Date... 12/6/2026

PRACTICAL CHECKLIST (70 MARKS)

Cutting list

Item	Quantity	Provided by
Desktop computer with packet tracer	1 per candidate	Institution

TASK 1: Network Design & Physical Topology (15 Marks)

No.	Observation Item	ALLOCATED MARKS	SCORE	REMARKS
1	Correct devices placed (2 routers, 2 switches, 4 PCs)	3	03	Placed
2	Devices correctly labeled (Router0, RouterA, Switch0, Switch1)	3	02	Router 0 (2)
3	PCs correctly placed in LAN A and LAN B	3	03	Placed well
4	Correct cabling types used appropriately	3	03	Correct
5	WAN link correctly established between routers	3	03	Connected and established

14

TASK 2: IP Addressing & End Devices (15 Marks)

No.	Observation Item	ALLOCATED MARKS	SCORE	REMARKS
-----	------------------	-----------------	-------	---------

6	LAN A correctly uses 192.168.1.0/24	3		
7	LAN B correctly uses 192.168.3.0/24	3		
8	Unique valid IPs assigned to all PCs	3	3	Correct 18/18
9	Correct subnet mask (255.255.255.0) applied	3	3	Correct 18/18
10	Correct default gateways configured	3	3	unique IP addresses subnet mask the network correct

TASK 3: Router Interface Configuration (15 Marks)

No.	Observation Item	ALLOCATED MARKS	SCORE	REMARKS
11	Router hostnames correctly configured	2		
12	Router0 LAN interface configured (192.168.1.1/24)	3	3	Not configured
13	Router0 WAN interface configured (192.168.2.1/24)	3	3	
14	RouterA LAN interface configured (192.168.3.1/24)	3	3	
15	RouterA WAN interface configured (192.168.2.2/24)	2	3	
16	Interfaces enabled using no shutdown	2	2	

TASK 4: Static Routing Configuration (10 Marks)

No.	Observation Item	ALLOCATED MARKS	SCORE	REMARKS
17	Router0 static route to LAN B configured correctly	5	05	static configured
18	RouterA static route to LAN A configured correctly	5	05	

TASK 5: Connectivity Testing & Simulation (15 Marks)

No.	Observation Item	ALLOCATED MARKS	SCORE	SCORE
19	Successful ping from PC0 to PC2	5	05	successful ping
20	Successful tracert from PC0 to PC2	3	000	unsuccessful tracert
21	Simulation mode correctly set to ICMP filter	2	2	

22	PDU correctly sent from PC0 to PC3	3	3	Pdu sent
23	Packet successfully reaches destination and returns reply	2	2	Packet reaches destination.

12

PRODUCT CHECKLIST (10 MARKS)

No.	Product Deliverable	Allocated marks	score	remarks
1	Correct Packet Tracer file created (.pkt)	2	2	file created (pkt)
2	File saved using correct naming format	2	2	
3	Topology fully matches required design	2	2	Matches required design.
4	All configurations correctly applied and functional	2	2	Configured correctly
5	Working end-to-end connectivity demonstrated	2	2	End to end working.
